# Toolbox TALK

## THINK SAFETY FOR HOLIDAY GIFT GIVING

Remind family and friends you care this holiday season by giving the gift of safety! Here are a few practical gifts for those on your list:

- Smoke detectors and batteries
- A quality fire extinguisher
- A flashlight and batteries or light sticks
- A first-aid kit
- An automobile safety kit including jumper cables, flares, fix-a-flat, and reflectors
- A carbon monoxide detector
- A mobile phone
- A second-floor escape ladder
- An emergency kit containing energy bars, water, a battery-operated radio, flashlight/light sticks, and a first-aid kit packed in a small travel bag
- A kinetic flashlight that doesn't need batteries
- A weather alert radio
- A radio that runs by cranking rather than batteries
- A talking smoke detector if they have small children
- A bicycle helmet
- A ground fault circuit interrupter (GFCI) extension cord.

Many of these items aren't thought about until we need them – when it may be too late. Plan ahead and encourage your loved ones to have a happy and safe holiday season.
