

Navigating Safety During a Pandemic

WORKPLACE SAFETY AMID CHANGING GUIDELINES

Navigating workplace health and safety amid a pandemic adds increased challenges and additional concerns for employers to consider. Whether your company is private and subject to OSHA regulations or a non profit/governmental entity, COVID-19 has changed how you manage workplace safety. Guidelines and regulations are changing regularly as new information is discovered. RETTEW is staying on top of the latest safety measures related to COVID-19 to guide our clients through this challenging time.

Our safety professionals are offering online training options specific to COVID-19-related concerns. Class sizes are limited to 25 participants to provide a personalized training experience. RETTEW also continues to offer on-site health and safety services to essential businesses in a manner consistent with physical distancing guidelines.

Live Online Training Options

- ▶ **COVID-19 Cleaning and Disinfecting Control Measures** - A course designed to increase supervisor and employee awareness of the coronavirus and how to safely clean and disinfect surfaces and potentially affected objects.
 - ▶ Hazard Awareness
 - ▶ Hazard Recognition
 - ▶ Hazard Prevention and Control
 - ▶ Standard Prevention Procedures
 - ▶ Cleaning and Disinfecting
 - ▶ Waste Disposal
 - ▶ COVID-19-Related Personal Protective Equipment (PPE)
 - ▶ Bloodborne and Respiratory Protection Awareness Overview
- ▶ **Bloodborne Pathogens (BBP)** - Overview of necessary practices and PPE to reduce exposure to BBPs and other potentially infectious bodily fluids.
- ▶ **Personal Protective Equipment (PPE)** - A course for all employees who wear PPE that covers equipment selection, when to use, and its limitations, as well as proper care and maintenance for all types of PPE.
- ▶ **Respiratory Protection** - For all employees who wear respiratory PPE, including N-95 masks. Topics include proper equipment selection, when to use it, and its limitations, ensuring a proper seal and proper care and maintenance.
- ▶ **Injury/Illness Reporting and Investigation** - Training to assist in building an effective safety program by identifying trends and determining root causes to prevent additional incidents.

Health and Safety Services

- ▶ **Contractor Oversight** - On-site contractor safety management to reduce potential work-related injuries and losses.
- ▶ **Job Hazard Assessments** - Review specific work tasks and identify potential related hazards and effective means to eliminate or control them.
- ▶ **Workers' Compensation Management** - Provide comprehensive work-related injury/illness reporting, investigation, injury management, and return-to-work management.

Grants Available

Non profit and local government organizations may be eligible to receive FEMA Public Assistance Grant Funding through Category B Emergency Protection Measures. Our grant specialists can help you through the application process.
