

Elizabethtown Fire Department Elizabethtown, PA

Professional Design & Construction, Inc. was asked to work with the fire department to assess how to best lay out administrative and various support spaces within their existing facility. This work was required in reaction to internal fire damage. Our firm was selected because of our unique response abilities.

Mr. Glenn Frill, President
Professional Design & Construction, Inc.
61 Church Street
Landisville, Pa. 17538

Dear Glenn:

Now that the renovation project is completed, I wanted to take this time to express my appreciation for the excellent effort put forth by your firm. I would like to give a special note of thanks to John Risser, John Matthews, and John Wolf without their guidance and expertise the project would have been a lot harder on our organization to achieve. The result being a firehouse that will meet our needs for serving the community for years to come.

We can certainly recommend Professional Design & Construction, Inc. for consideration by those firms and organizations that are currently planning to add to or improve their facility.

Our members and members of the community that have seen the result have complimented what we have done with the building. On behalf of all of us at Elizabethtown Fire Department, we thank you for a job well done.

Sincerely Yours,
Thomas J. Chesbro
Treasurer
Building Committee Co Chairman
