BUDGETING SEASON

As the 2022 municipal budgeting season begins, now is a good time to identify, discuss, and prioritize your upcoming projects and consider potential funding sources. Getting a head start on planning and defining projects can be very beneficial when funding opportunities arise.

If you are looking for ways to advance a project or have any questions, please don't hesitate to contact us.

To apply for federal grants, cooperative agreements, or other forms of federal financial assistance through grants.gov, applicants must be registered and active in the System for Award Management (SAM) *before* submitting an application. This process may take from four to six weeks. Oftentimes, grant opportunities are released with a lead time of two months, but sometimes less. Now is the time to apply and be ready when the right funding opportunity comes out.
